

Electronic Pest and Rodent Repeller with Four Modes

1. Power supply socket
2. 4-function switch:
 - 2.1 TEST= test tone (Simulates the sounds that rodents hear)
 - 2.2 ULTRA = ultrasonic sound (Repel mice effectively)
 - 2.3 TRANS = pressure waves (Repel rats & squirrels effectively)
 - 2.4 DUO = pressure waves + ultrasonic sound (Repel all pest that mentioned above)
3. Speaker: emits ultrasonic sound
4. Transducer: emits pressure waves
5. Red LED: illuminates when „ultrasonic sound“ is active (ULTRA)
6. Green LED: illuminates when „pressure waves“ is active (TRANS)
