DaFit app

To connect your smartphone with the smartwatch, you first need to download and install the DaFit app. To do so, search the app on the Google Play Store for Android or App Store for iOS, or scan the QR code below. Download the app, and install it.

Please note that your smartphone must support Android 5.1 or newer, or iOS 8.0 or newer. Also, it must support Bluetooth v4.0 or newer.

To pair the smartwatch, enable Bluetooth on your smartphone, open the app, and tap Add Device. Click on your device from the scanned list of devices. The iOS system will show a Bluetooth pairing request, and after confirmation, it will pair. The Android system will pair directly.

To unpair the smartwatch from your Android device, simply click on Remove Device and you're done. For iOS, you have to remove the device and then go to Bluetooth settings and click on "Forget This Device" to finish unpairing.
