

Kids Smartwatch with GPS Tracker and SOS Button D06S

Product overview

1. Reset button, Power on/off, SOS, Call/Hang up
2. Return button, Answer call
3. Charging port on the back
4. SIM card slot

App Download & Pairing

1. Scan the following QR code to install the SeTracker2 App, or download SeTracker2 from App Store or Google Play to install it

2. After APP has been downloaded, start new user registration. You need to insert your mobile phone number.

3. After account registration is successful, you will need to link the watch to your account

- Open the settings page in the watch, and then click the registration code menu. A QR code and ID number will appear. The mobile phone APP can be scanned to the QR code or manually enter the ID number.

4. On the home screen, please click on the green teardrop on the top right corner of the screen to register your child's device.

5. Click on the device list and then click on Add Device.

6. Enter the registration code (found at the back of the watch) manually or scan with a QR Code reader and enter the child's name or nickname of the watch, then press SAVE to confirm.

Insert SIM card

1. Unscrew the sim card slot

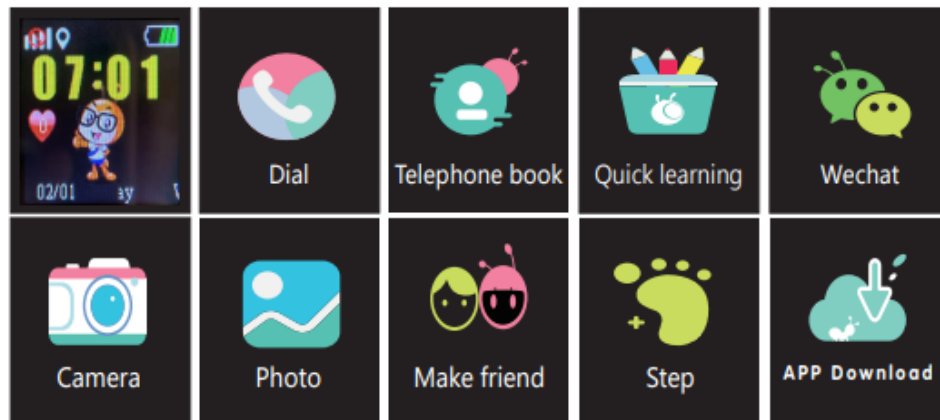

2. Insert the SIM card with the metal chip facing upwards and the nick facing inwards. Please make sure the watch is powered off

3. Use the Micro USB SIM card

Basic functions

1. Dial - touch to call.
2. Telephone book - touch to enter your phone book, it supports up to 15 numbers.
3. Quick learning - Click the start menu and check the correct answer.
4. SOS - press and hold the power key for 3 seconds, and the watch screen will show SOS. The watch will dial the selected numbers in the application.
5. Wechat - Watch can send a voice message to the application on your mobile phone.
6. Camera - The SeTracker2 APP can take photos remotely, and the watch side can also take pictures by itself.
7. Photo - photo gallery
8. Make friends - You can bump two watches together in the mode to pair them as friends. The watch will prompt when successful. After successfully pairing with a friend, hold down the power button, and you can send voice messages.
9. Step count - The step count is deactivated by default. Please enable it in the APP. The watch will automatically count your child's steps after the step count is enabled.

SeTracker2 basic functions

1. SOS / Family number - You can enter 3 SOS numbers.
2. Sound Guardian - This allows you to set a number the watch will call without your child knowing, and you, as the parent, can listen to your child's surroundings.
3. Location update schedule - This mode determines how often the watch will send a GPS signal to the mobile. If the watch battery is not last, then please change the setting.
4. SMS alert - Please select when you want to receive an SMS (Low battery SOS).
5. Phone book - Parents can program up to 10 numbers to communicate with the watch.
6. Baby contacts - You can add phone numbers of your child's friends with the same watch so they can communicate through the watch.
7. Remote shutdown - You can switch off the watch from your smartphone.
8. Health - This allows parents to monitor their kid's activities.
9. Do not disturb - Set a time that no one can make a call or send messages to the watch.

10. Alarm clock - Parents can set an alarm clock to wake up kids.
11. Messages - Parents can send the watch a message.
