4. Power on/SOS button/Return to the main screen
5. Answer a call
6. SIM card slot
7. MicroUSB charging port

Charging and installing the SIM card

It is recommended to use a charger of output parameters of 5V 1A. The total charging time of the watch is approximately 2 hours. Open the plug protecting the microUSB port, connect the included microUSB cable, and connect the device to a power source.

Always make sure your watch is turned off before inserting or removing the SIM card. Open the back cover of the smartwatch by gently prying it at the top and sides until the latches are unfastened. Remove the battery taking care not to damage the battery cables and remember its position. Open the micro SIM card cover by sliding it slightly to the right, and then insert the SIM card into the slot in such a way that the sim card chip is facing upwards to the watch screen. Then close the lock by sliding to the left. Place the battery in the watch in its original position, then close the back cover by pressing the latches.

1. The home screen shows the current date and time as well as the battery level. On this screen, we also see the icon for connecting to the mobile network.
2. Enables you to make a phone call by manually entering the number.
3. The phone book gives you access to 10 contacts defined using the application.
4. Allows you to take a photo that will be saved in the album.
5. Access to the last photo taken. You can preview, send or delete it. Each subsequent photo taken overwrites the previous one.
6. A simple math game with three levels.
7. It allows you to send voice messages and receive text and voice messages.
8. Start the flashlight built into the watch.
9. Read the registration QR code for the device and the application QR code.

SeTracker app

Search for the "SeTracker" app in Google Play or App Store. Download and install it. In the registration window, enter your email address, password, and the area of use of the watch. Then enter or scan the watch code (REG CODE) found on the bottom of the box and on the watch.

Chat: Send a text or voice message to the watch by typing it on the keyboard or recording it using the phone's microphone. You can also listen to the voicemails sent from the watch here.

Route: select the date and time slot to display the traveled route.

Map: Select the map icon to view the current location of the watch.

Safety zone: designate a safety zone, when the watch will found outside the selected zone, you will receive a notification from the app.
